# "IT Budgeting Guide for 2022"

You've responded to the pandemic and now your IT budget needs to respond, too. This paper covers all the bases, including:

- What's different in IT budgeting for 2022
- How to allocate funds between the Run, Grow, and Transform budgets within your overall IT budget
- Strategies to assign IT responsibilities and retain your top talent
- The five most common IT budgeting mistakes and how to avoid them
- A proven, step-by-step approach to achieving IT budgeting success every year

Take advantage of Leapfrog's 23 years of experience — these proven strategies and insider tips help take the guesswork out of IT budgeting.
